Part A – Contributions to a social security arrangement

Complete this part if you made contributions to an eligible social security arrangement. These contributions may be eligible for a 15% non-refundable tax credit. In addition, you may be able to claim a deduction in Part B for any contributions in excess of those eligible for the tax credit.

If **all** of the following conditions are met, you can proceed with the calculation of the non-refundable tax credit below:

- You were participating in the arrangement on a regular basis just before you began performing services in Canada.
- The contributions are attributable to services you performed in Canada and were made during the period you performed the services.
- The remuneration that you received for those services is taxable in Canada.
- The total period during which you made contributions while you were temporarily residing in Canada is no more than 60 months (48 months for Finland).
- The eligible contributions are deductible only in the year in which they were made and only to the extent that they would qualify for tax relief in your home country if you had been a resident and performed the services in that country.

How to make your claim

If you are completing Schedule 11, include this amount when you calculate the amount on line 5 of your Schedule 11. Do **not** include any amount of social security contributions when you calculate line 308 of Schedule 1.

On provincial/territorial forms (excluding those for Quebec), include the amount from line 11 when you calculate line 5880 on your Form 428. If you are completing Schedule S11, also include this amount when you calculate any line where field 5824 forms part of the calculation. If you performed employment services in Quebec, contact Revenu Québec at revenuquebec.ca/en.

If the amount you entered on line 10 is more than the amount you entered on line 11, you may choose to complete Part B.
