

**Tax on Split Income – 2017**

Use this form to calculate your tax on split income if you meet **all** of the following conditions:

- you were born in 2000 or later (or you claimed a reserve on line C on your 2016 Form T1206);
- you were a non-resident at no time in 2017;
- you have a parent who was resident in Canada at any time in 2017; and
- you reported split income on your 2017 return, as described below.

Split income **includes** the following amounts:

- **shareholder benefits** (other than from ownership of shares of a class listed on a prescribed stock exchange) conferred on you, whether directly or through a partnership or trust (other than a mutual fund trust);
- **taxable amount of dividends (eligible and other than eligible)** from ownership of shares of a corporation (other than from shares of a class listed on a prescribed stock exchange and those of a mutual fund corporation), whether received directly or through a partnership or trust (other than a mutual fund trust);

**Note**

If you dispose of shares to a person with whom you do not deal at arm's length, and dividends on the shares would be subject to the tax on split income, then the capital gain arising from the disposition is deemed to be a taxable dividend. The deemed dividend is not an eligible dividend. If this applies to you, complete the calculation below.

- **income you received from a partnership or trust** (other than a mutual fund trust) that came from income that a partnership or trust earned from providing property or services to, or in support of, a business carried on by:
  - a person related to you at any time in 2017;
  - a corporation of which one of your relatives was a specified shareholder at any time in 2017; or
  - a professional corporation of which one of your relatives was a shareholder at any time in 2017; and
- **income you received from a business or rental property of a partnership or trust** (other than a mutual fund trust), if a person who is related to you at any time in the year:
  - actively participates on a regular basis in the activity of the partnership or trust of earning that income; or
  - in the case of a partnership, has an interest in the partnership directly or indirectly through another partnership.

Split income **does not include** the income described above from property you inherited from a parent. It also does not include the income described above from property you inherited from anyone else provided you were either enrolled as a full-time student at a post-secondary educational institution in 2017, or you were eligible to claim the disability amount for 2017.

**Attach a completed copy of this form to your return.**

**Deemed dividends from dispositions of certain capital property (shares subject to tax on split income)**

If you (or a trust of which you are the beneficiary) disposed of shares to a person with whom you do not deal at arm's length, and the dividends on such shares would be subject to tax on split income, you must complete the calculation below. **Otherwise**, complete Part 1 to calculate your federal tax on split income, and Part 2 to calculate your provincial or territorial tax.
